

Solution

UK research clearinghouse and horizon scanning

What is the idea?

Collate relevant research information, practical evidence and emergent trends

Analyse for relevance to UK HEIs and FEIs

Communicate generally; provide targetted services

Which national bodies and which change agents inside institutions will mainly be involved?

UCISA, ALT, other partners

Educational research bodies

International bodies e.g. Educause, Ascilite etc

Heads of e-Learning, strategic managers

How will this help institutions?

Horizon scanning

Prioritise ICT, estates and learning/teaching investments

Benchmarking, competitive edge

Case for change (and also) refute myths

Responsive to emerging needs, risks and opportunities

Internationally competitive

Better management and use of learner data

How will this enhance the student digital experience?

Bring up 'baseline' student digital experience

Provide support and direction to innovation
