Supporting our learners' digital experience

#digitalstudent

- » Top down/ bottom up approach from senior management and early adopters and enthusiasts
- » Wi-Fi access
- » Access to mobile technology
- » Meaningful staff development
- » Creative development time
- » Developing learning outside the classroom

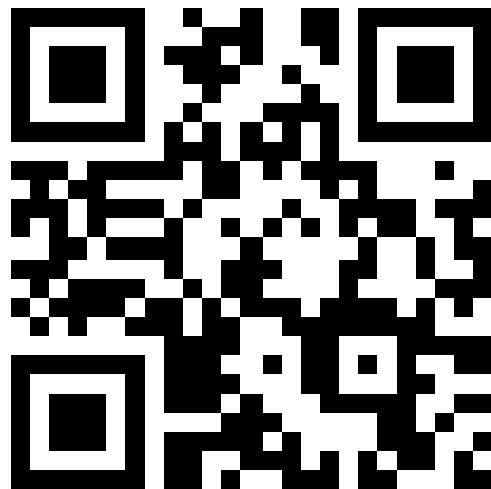

What are some providers doing already?

Onefile
nomad

- » Family Learning tutor has been using Aurasma and QR codes linking to videos and animations (on the VLE), teaching parents phonics so they can support children
- » In a gardening session, held in a local park, learners with learning difficulties and disabilities used tablets very effectively to record and evaluate progress
- » Learners thoroughly enjoyed using the interactive whiteboard to build complex sentences from simple phrases.

<http://bit.ly/1oi3uhE>

- » Go to our Padlet wall either by scanning the QR code or visiting http://padlet.com/catriona_moore/digitalstudent

- » Write down one thing you feel your organisation does well using technology with your learners

- » One ACL service has amended its PCDL learner follow-up survey which now includes questions about the kit used during the course and how it helped their learning
- » Another asks if they have computer skills to use government and social websites and this is being developed to better reflect and evidence the use of ICT
- » Another doesn't focus on the use of technology, more around the kit, learning resources and the work room.
- » Most don't ask but some are considering developing their surveys to include these topics

- » Advice and guidance
- » Staff Development
- » Learning resources
- » Funded projects
- » Signposting
- » Events
- » ... in the process of developing additional products and services of interest to FE & skills beyond the FE college.

- » Learning beyond and outside of the traditional classroom
- » Preparation towards inspection
- » Quality management processes, including observation, tracking and monitoring.
- » Mobile learning - tablet devices
- » Strategic development and cloud computing
- » Connectivity extending access to learning BYOD, WIFI connectivity
- » Safeguarding – e-safety
- » Business processes and data management
- » Telephony
- » Grade 3/4 Support
- » E-maturity and technology reviews

- » Dyslexia awareness training
- » Creating accessible resources
- » Engaging learners with mobile technology
- » Apps for polling and assessment
