Jisc Digital Student Projects

» **http://digitalstudent.jiscinvolve.org**

» Phase 1 study reviewed students' expectations and experiences of the digital environment at university and we spoke to 500 staff and students during our consultation (2013-2014)

» We conducted a review of practice in schools to identify likely incoming expectations (2014)

» In phase 2 we focused on FE speaking to 220 learners and 300 staff from colleges across the UK (2014-2015)

» Prototyping a digital student data service to support providers & universities to gather their learners experiences of technology

Skills Sector Digital Student Project Team

Giles Pepler, Senior Consultant, Sero, project manager and lead consultant

Nick Jeans, Sero, Senior Consultant (Learning Technology)

Barry Phillips, Senior Consultant, Sero

Support by Seb Schmoller (Sero Associate)

With support from Ellen Lessner, consultant

» Introduce yourself to the person sat next to you

» On a post-it record:

> Why are you here, what do you want to take away from today

» On another different coloured post-it:

> Write down one challenge you experience in using technology with your learners in your organisation

» How should Skills providers respond to learners' changing expectations of their digital environment?

» What experiences prepare learners to flourish in a digital world?

» What are providers doing to engage their learners in dialogue about their learning environment and to gather intelligence about their changing needs?

» Who needs to be involved?

Skills Sector Digital Student project

» What do learners WANT (expectations) in relation to the digital?

» What do learners NEED to succeed (experiences)?

» Literature review| stakeholder interviews | learner focus groups | consultation events

» Guidance for providers on how to gather learners' views, how to engage learners in an ongoing dialogue about the digital and how to better support learners digital experience

» Identify top challenges in relation to the digital learner experience and identify what support providers need in addressing these challenges

What one thing should providers do to enhance learners' digital experience?

» Text Wall: Send a text to 0207 183 8329 starting with digi

> NOTE - if you don't start the text with digi, it won't go to our inbox
